## TECHNICAL DATA SHEET (TDS)

Version 1.0  
Revision Date: 26.06.2024  
Printing Date: 26.06.2024

### Identification of the Substance/Mixture and of the Company

#### Product identifier

Product name : STAMP PAD INK  
Relevant product code : SPI28, SPI30, SPI28BX, SPI30BX (All colours)

#### Details of the supplier of the technical data sheet

Company : Elite Stationery (M) Sdn. Bhd  
Co. No. 198801009142 (176499-X)  
No. 1, Jalan KPK 1/2, Kawasan Perindustrian Kundang,  
Kundang Jaya, 48020 Rawang, Selangor Darul Ehsan  
Malaysia  
E-mail address : [elitesta@elitestationery.com](mailto:elitesta@elitestationery.com)

### Product Properties

Specific Physical Form : Liquid  
Color When Dry : Red, Blue, Violet, Black or Green  
Boiling Point / Range : 100 °C  
Flash point : Not determined  
Density : 1.0 – 1.1 g/cm<sup>3</sup>  
Kinematic Viscosity : Not determined  
Solubility in Water : Yes  
Shelf life : 12 months (unopened)

Elite Stamp Pad Ink developed for water-based stamping inks or inks containing more slowly drying solvents. Have long term behavior, contour sharpness and indelible. Our ink offers document proof ink, non-toxic and quick drying formula.

## Features of Product

- Non-toxic
- Quick drying formula
- Contour sharpness

## Descriptions of product

### Restrictions on use

Not for heavy duty use. Not water resistant

### Safety instructions

1. Harmful if swallowed. Keep out of reach of small children!
2. Can contaminated clothing

### Directions for use

- Shake your bottle of ink well before use
- Slowly open the ink cap
- Starting at the perimeter, place the nozzle on the pads surface and squeeze gently until ink is flowing.
- Continue at a steady pace around the edge of the pad. Once you have completed the perimeter begin going up and down while moving across the entire surface of the pad.
- Continue until you have covered the entire pad in ink. Allow the pad to sit for at least 5 minutes while it absorbs the ink.
- Test the ink saturation with a stamp to ensure the desired ink coverage and impression is achieved
- Re-inking must be performed at such time when the stamp impression has become consistently light.

### Storage stability

The shelf life of the product is 12 months if stored at room temperature in the original sealed packaging.
